Karen Zachary, Managing Director of the Technion Research Foundation, has been selected as winner of the 2018/2019 Research Foundation Award, with a prize of $20,000. The grant will support Dr. Zachary’s research on the treatment of Alzheimer’s disease.

The grant is sponsored by the Technion Research Foundation, which has supported Dr. Zachary’s research on Alzheimer’s disease.

The decision was made after a thorough review of the grant applications submitted by Dr. Zachary, which focused on the potential impact of his research on the development of new treatments for Alzheimer’s disease.

Dr. Zachary’s research is aimed at developing new treatment options for Alzheimer’s disease, which affects millions of people worldwide and is currently incurable.

The Technion Research Foundation congratulates Dr. Zachary on his achievement and looks forward to seeing the results of his research.

Dr. Zachary will receive the $20,000 prize at a special ceremony to be held later this month.

Mossachen Foundation (in Hebrew only):

(1) A new laboratory has been established at the Technion for research on the treatment of Alzheimer’s disease.
(2) The laboratory is funded by a grant from the Technion Research Foundation.
(3) The laboratory is led by Dr. Zachary, who has been selected as the winner of the 2018/2019 Research Foundation Award.
(4) The laboratory is located in the Technion’s School of Chemistry.
(5) The laboratory is equipped with state-of-the-art technology.
(6) The laboratory is dedicated to the development of new treatments for Alzheimer’s disease.
(7) The laboratory is supervised by Dr. Zachary, who is a leading researcher in the field.
(8) The laboratory is part of the Technion’s initiative to combat Alzheimer’s disease.
